SUMMARY

I am a driven web developer with a passion for creative expression. My background as an English teacher and international experience in Tokyo have honed my adaptability and resourcefulness, skills which I am eager to apply to my ongoing development as a web developer and in future endeavors.

EXPERIENCE

Freelance Web Developer

Self Employed

📅 08/2022 - Present 📍 Markham, Canada

Start-up Freelance Business

- Developed and designed web apps for local businesses, assisting clients with design, functionality, and services to connect their business with their customers.
- Responsible for domain name transfer, hosting, website deployment, and email MX record service transfer.
- Built rapport and constant communications with business owners to ensure their goals were evident and fulfilled.

Property Manager Assistant

FirstService Residential

📅 03/2020 - 09/2021 📍 Richmond Hill, Canada

Residential Property Management

- Responsible for the upkeep and organization of four separate condominium complexes, as well as the management of all staff and the well-being of residents.
- Utilized Strata Management Software to organize owner and tenant data, events, minutes, construction, and more.
- Created original notice documents handling management communications towards owners and tenants.

Assistant Language Teacher (A.L.T.)

Mebae School めばえ教室

📅 06/2017 - 08/2019 📍 Tokyo, Japan

English and Japanese After School Language Program

- Assisted the lead instructor with five to seven classrooms day; teaching English to between five and fifteen students per class and creating lesson plans.
- Created original teaching materials for students e.g., flashcards.
- Conducted one-on-one tutoring with students for English exam preparation.

PROJECTS

Jobi

📅 03/2023 - Present 📍 Markham, Canada

🌐 <https://jobiboard.netlify.app>

Job board prototype project

- Developed a job board prototype based on a Figma template, utilizing custom-built React components.
- Implemented data manipulation, storage, and retrieval from Firebase across multiple pages using advanced techniques such as map, sort, filter, state hooks, and use effect hooks.
- Designed a responsive and accessible user interface that adheres to WCAG 2.1 standards.

HOPARC (Freelance Project)

📅 2022 - Present 📍 Markham, Canada

🌐 <https://hoparc.com>

Redesign of old website using Next.js

- Improved S.E.O score on website resulting in 67% more online traffic over 6 month span.
- Modernized the websites design using Figma.
- Implemented modern web development tools to allow the business more control including a custom content management system (Sanity.io).
