PROJECTS

HOPARC (Freelance Project)

NEXT.JS | TYPESCRIPT | TAILWIND | FIGMA | SANITY.IO
[LIVE SITE / REPO](#)

- Utilized Sanity (Headless CMS) to allow for dynamic content updates by the client.
- Built a form for product and appointment inquiries using React Hook Form and Formspree, incorporating spam filtering and Recaptcha for human verification.
- Implemented a filter to allow customers to easily access relevant information.
- Modernized from the original design using Figma, including a call to action to improve user engagement
- Successfully deployed website and transferred domain name and MX records.

YSB TOURS

REACT | API | GROUP PROJECT

[LIVE SITE / REPO](#)

- Client-based project to design a responsive mock web app
- Uses NASA APIs as well as local storage for the validation.
- Collaborated with three other developers to build strong communication and teamwork abilities.

WORK EXPERIENCE

FRONT-END WEB DEVELOPER

Self-Employed | Markham, Canada
August 2022 - Present

- Developed and designed web apps for local businesses, assisting clients with design, functionality, and services to connect their business with their customers.

ASSISTANT PROPERTY MANAGER

First Service Residential | Richmond Hill, Canada
March 2020 - September 2021

- Responsible for the upkeep and organization of four separate condominium complexes, as well as the management of all staff and the well-being of residents.

ASSISTANT LANGUAGE TEACHER

Mebae English & Japanese School | Tokyo, Japan
June 2017 - August 2019

- Assisted the lead instructor with five to seven classrooms a day; teaching English to between five to fifteen students per class and creating lesson plans.
